Volume 149 (2004)

Proceedings of EUROTOX 2003

Preface 1

The Gerhard Zbinden memorial lecture

DNA and protein adducts as markers of genotoxicity
P.B. Farmer (UK) 3

Key note lecture

Chemical weapons: documented use and compounds on the horizon
C. Bismuth, S.W. Borron, F.J. Baud and P. Barriot (France, USA) 11

Mechanisms of Toxicity

Mitochondrial regulation of apoptotic cell death
S. Orrenius (Sweden) 19

Role of apoptosis for mouse liver growth regulation and tumor promotion: comparative analysis of mice with high (C3H/He) and low (C57Bl/6J) cancer susceptibility
W. Bursch, B. Grasl-Kraupp, U. Wastl, K. Hufnagl, M. Chabicovsky, H. Taper and R. Schulte-Hermann (Austria) 25

Regulation of apoptosis by peroxisome proliferators
R.A. Roberts, C. Michel, B. Coyle, C. Freathy, K. Cain and E. Boitier (France, UK) 37

Tumor promoters as inhibitors of apoptosis in rat hepatocytes
D. Schrenk, H.-J. Schmitz, S. Bohnenberger, B. Wagner and W. Wörner (Germany) 43

Perturbation of epigenetic status by toxicants
V. Bombail, J.G. Moggs and G. Orphanides (UK) 51

Neural stem cells and cell death
S. Ceccatelli, C. Tamm, E. Sleeper and S. Orrenius (Sweden) 59

Signal transduction mechanisms involved in the antiproliferative effects of ethanol in glial cells
L.G. Costa, A. Vitalone and M. Guizzetti (USA, Italy) 67

Nitric oxide-dependent and independent down-regulation of NO-sensitive guanylyl cyclase in neural cells
T. Sardón, M.A. Baltrons and A. García (Spain) 75

Cytokines role in neurodegenerative events
B. Viviani, S. Bartesaghi, E. Corsini, C.L. Galli and M. Marinovich (Italy) 85

Different mechanism of blockade of neuroexocytosis by presynaptic neurotoxins
O. Rossetto, M. Rigoni and C. Montecucco (Italy) 91

Immunotoxicology

Importance of immunotoxicity in safety assessment: a medical toxicologist's perspective
J. Descotes (France) 103

Sensitivity and predictivity in immunotoxicity testing: immune endpoints and disease resistance
D.R. Germolec (USA) 109

Adequate immunotoxicity testing in drug development
D.J. Herzyk and E.R. Gore (USA) 115

Validation of immune function testing during a 4-week oral toxicity study with FK506
P. Ulrich, G. Paul, E. Perentes, A. Mahl and D. Roman (Switzerland) 123

doi:10.1016/S0378-4274(04)00143-2

Determination of the effect of calcineurin inhibitors on the rat's immune system after KLH immunisation
D. Roman, P. Ulrich, G. Paul, M. Court, P. Vit, J. Kehren and A. Mahl (Switzerland) 133
Immunotoxicological consequences of perinatal chemical exposures
H. Van Loveren and A. Piersma (The Netherlands) 141
Validation of alternative methods for developmental toxicity testing
A.H. Piersma (The Netherlands) 147
Alterations in the immune system of children from mothers treated with immunosuppressive agents during pregnancy
R. Cimaz, E. Meregalli, M. Biggioggero, O. Borghi, A. Tincani, M. Motta, P. Airò and P.L. Meroni (Italy) 155

Food Toxicology
Risk characterisation of chemicals in food
A.G. Renwick (UK) 163
Human health risk assessment of processing-related compounds in food
A.M. Tritscher (Switzerland) 177
Criteria for risk assessment of botanical food supplements
R. Walker (UK) 187
Safety evaluation of natural flavour complexes
R.L. Smith, T.B. Adams, S.M. Cohen, J. Doull, V.J. Feron, J.I. Goodman, R.L. Hall, L.J. Marnett, P.S. Portoghese, W.J. Waddell and B.M. Wagner (UK, USA, The Netherlands) 197
Issues and challenges in the safety evaluation of food flavors
T.B. Adams and R.L. Smith (USA, UK) 209
Novel estimates of the exposure to flavouring substances
P. Cadby (Switzerland) 215
Toxicology databases and the concept of thresholds of toxicological concern as used by the JECFA for the safety evaluation of flavouring agents
A.G. Renwick (UK) 223

Environmental Toxicology
Fine particles and human health—a review of epidemiological studies
N. Englert (Germany) 235
Possible mechanisms of the cardiovascular effects of inhaled particles: systemic translocation and prothrombotic effects
A. Nemmar, M.F. Hoylaerts, P.H.M. Hoet and B. Nemery (Belgium) 243
Effect of coal mine dust and clay extracts on the biological activity of the quartz surface
V. Stone, R. Jones, K. Rollo, R. Duffin, K. Donaldson and D.M. Brown (UK, Germany) 255
A molecular epidemiological approach to health risk assessment of urban air pollution
P. Hrelia, F. Maffei, S. Angelini and G. Cantelli Forti (Italy) 261
Impact of phase I or phase II enzyme polymorphisms on lymphocyte DNA adducts in subjects exposed to urban air pollution and environmental tobacco smoke
P. Georgiadis, N.A. Demopoulos, J. Topinka, G. Stephanou, M. Stoikidou, M. Bekyrou, K. Katsouyianni, R. Sram, H. Autrup and S.A. Kyrtopoulos (Greece, Czech Republic, Denmark) 269
Immunological effects of environmental exposure to polychlorinated biphenyls and dioxins in Dutch school children
N. Weisglas-Kuperus, H.J.I. Vreugdenhil and P.G.H. Mulder (The Netherlands) 281
Aryl-hydrocarbon receptor-dependent pathway and toxic effects of TCDD in humans: a population-based study in Seveso, Italy
A. Baccarelli, A.C. Pesatori, S.A. Masten, D.G. Patterson Jr., L.L. Needham, P. Mocarelli, N.E. Caporaso, D. Consonni, J.A. Grassman, P.A. Bertazzi and M.T. Landi (USA, Italy) 287
Risk factors of jet fuel combustion products
I. Tesseraux (Germany) 295
Local and systemic toxicity of JP-8 from cutaneous exposures
J.N. McDougal and J.V. Rogers (USA) 301

New Methadological approaches in the evaluation of toxicity and human exposure to chemicals
Cytogenetic biomarkers and genetic polymorphisms
H. Norppa (Finland) 309
Cytogenetic analysis using fluorescence in situ hybridization (FISH) to evaluate occupational exposure to carcinogens
R.J. Sram, O. Beskid, B. Binkova, P. Rossner and Z. Smerhovsky (Czech Republic) 335
Chromosomal aberrations and in vitro radiosensitivity: intra-individual versus inter-individual variability
A. Vral, H. Thierens, A. Baeyens and L. De Ridder (Belgium) 345

Biological monitoring in occupational exposure to low levels of 1,3-butadiene
S. Fustinoni, L. Perbellini, L. Soleo, M. Manno and V. Foà (Italy) 353
Embryonic stem cell-derived cardiac, neuronal and pancreatic cells as model systems to study toxicological effects
A. Rolletschek, P. Blyszczuk and A.M. Wobus (Germany) 361
Progress in applying genomics in drug development
P.G. Lord (USA) 371
Application of proteomic technologies in the drug development process
J.L. Walgren and D.C. Thompson (USA) 377
The validation of in vitro methods for skin irritation
P.A. Botham (UK) 387

Risk assessment: Principles and applications
The public and effective risk communication
L. Frewer (The Netherlands) 391
Effective risk communication practice
W. Leiss (Canada) 399
Perception of risks
O. Renn (Germany) 405
Analysis of thresholds for carcinogenicity
W.J. Waddell (USA) 415
ECCO peer review—development since 1996 and future prospects
D.J. Flynn and J.R. Lundehn (UK, Germany) 421
The accession countries benefit in the field of plant protection products
A. Stanek (Czech Republic) 429
Mediterranean countries impact on the implementation of Council Directive 91/414/EEC
K. Machera and K. Markakis (Greece) 433
